Completion 2019
Cost/SF \$75

PROJECT HIGHLIGHTS

Expanding to the top floor of Regions Plaza, SalesLoft teamed up with BoggsVickers again to provide the best for their engineering team. Fresh green carpet tiles and rich blues activate the collaborative areas, while a soft gray palette in the benching areas helps to highlight the arched windows and City views. A dark, moody café with a playful marquee sign are the signature features for the floor. Comfortable booths with customizable lighting are key for employees during moments of heads-down work. The huddle rooms with garage doors provide flexibility for SalesLoft's collaboration-centric teams.
